HOUSEHOLD CAN AND BOTTLE SMASHER

To: Prof. C. Jack Quinn
From: Larry J. Bobay
Date: May 7, 1978

ABSTRACT

This report is on a household can and bottle smasher that reduces the volume of trash, when used in conjunction with the common garbage can. The design, fabrication, and testing of the device are discussed in this report. When attached to a kitchen garbage can, this device enables cans and bottles to be smashed and then dropped into the kitchen garbage can for removal at a later date.
